All doors are warranted against defects in material and workmanship for a period of 1 year. All 6 sides of the door must be painted for the warranty to be effective. Warping less than ¼" shall not be considered as a defect. Doors that are cut to custom sizes cannot be warranted against warping.

### **Exterior Steel/Fiberglass Doors**

Exterior doors are warranted against defects in material and workmanship for a period of ten (10) years from date of purchase, provided recommended installation, painting, staining, and maintenance procedures are followed.

All primed and fiberglass doors require paint or stain on door, window trim, decorative trim, and jam with the appropriate paint or stain within 3 months of installation. Use of dark colored paint may void warranty in some applications.

*Factory finished slabs are subject to door manufacturer's warranty.*
